Kota Tangerang Selatan, Pamulang Barat, Banten, 15417

Motivated information system professional with a passion for programming and technology. Adaptable and diligent, critical thinker, driven to find innovative solutions and embrace new experiences. Proficient in PHP Laravel, CSS, C# Java, JavaScript, and SQL, with expertise in database management. Committed to continuous learning and problem-solving. Eager to contribute to the dynamic field of information systems.

Working Experiences

KPN CORP – South Jakarta

Jul 2024 – Present

Full Stack Web Developer Intern

Assisted in developing web applications for the company using PHP Laravel, JavaScript, and SQL. Focused on both front-end and back-end development, improving performance, and database management. Collaborated with the team to ensure project success and meet company requirements.

Universitas Kristen Duta Wacana – Yogyakarta

Aug 2022 - Feb 2024

Assistant Lecturer

As an Assistant Lecturer, I adeptly handled classes with approximately 50 students, instructing fundamental subjects like Programming and overseeing hands-on sessions for Database Design and Database System Practicum. Proficient in PHP, CSS, Java, JavaScript, and MySQL, I'm well-equipped to inspire and educate the next generation of information technology professionals.

- Fundamentals of Programming
- Database Design Practicum
- Database System Practicum

MyEduSolve – West Jakarta

Aug 2023 – Jan 2024

UI/UX Apprentice

Participated in an intensive UI/UX design program that emphasized real-world application of user-centered design principles. The final project involved designing a new job portal app for Mamikos from scratch, aiming to enhance recruitment tools with improved user experience, accessibility, and seamless interaction. Key enhancements were made to ensure a more intuitive interface and seamless interaction, while applying best practices in usability and responsive design to meet diverse user needs.

- Conducted comprehensive user research and competitive analysis of property rental platforms to identify pain points and opportunities
- Created wireframes, user flows, low-fidelity and high-fidelity prototypes using Adobe Illustrator and Figma for both mobile and web platforms
- Presented final design solutions to stakeholders, incorporating user feedback and iterative improvements
- Developing a job portal app for Mamikos, focused on providing recruitment tools and enhancing the experience for recruiters

Universitas Kristen Duta Wacana – Yogyakarta

Apr 2023 – Sep 2023

Information Technology Faculty Lab Part-Time Worker

I served as a part-time worker in the Information Technology Faculty lab, supporting various IT functions and assisting students in a dynamic academic environment.
